EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 25, line 1; Change the dependency from "claim 24" to "claim 23".

Applicants have cancelled claim 24 and added the limitation from claim 24 into claim 23. Therefore, it appears that the change in dependency of claim 25 was inadvertently overlooked.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach and/or suggest an inert anode assembly and the method of making wherein a particulate conductor material of at least one metal of Cu, Ag and Ni partially fills the gap between the inert anode cavity and an electrically conductive rod disposed in the cavity. Further, the prior art of record does not disclose that the metal particulate is poured into the gap in loose particulate form.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/797,170
Art Unit: 1746
